FIRST PLACE WINNER

CARtoons,

Well, guys, I finally did it! I saved up my money, all \$37,000, and here it is! There was a choice between an 86 Corvette and this. And you won! This money is for the "Cruisin California" Model Set in the June 85 mag. It took 16 months, but it's here. Please send it right away. Thanks.

Norbert Weiner (aka Bob Bias)  
 Hamilton, Ohio

—Well, Norbert, we'll be getting your Cruisin Set into the mails just as soon as your check clears the bank. However, we did think your letter was, in a word: hilarious, and you managed to win First Place in the Letters column this issue. That ought to hold you until your kit arrives in the mail.

SECOND PLACE WINNER

Hey there, hi there, ho there!

First off I would like to say thank you. Thank you for being. CARtoons fills a definite space in my life. It's where my appreciation of cartooning and vehicles melds in perfect harmony.

Also, thanks for the memories, I've been buying your magazines when ever I could find them since I don't know when, the late 60s. I remember Hot Rod Cartoons and CYCLEtoons. I remember Unk and Them Varmints and Hogg Ryder and the Ol' Poop and Webley-Vickers 50/80 and Pocketa-pocketa-pocketa etc. I no longer have my old "toons". I thought I outgrew them. Aaaaaaaarrrrrgggh!

Now you have subscriptions. Aw-right and about time and thanks. And thanks to the individuals too. Bob Hardin is darn good at drawing cars and people. Did he ever draw for MAD magazine? Steve Austin is great. My hat is off to him. His cartoons contain much subtle humor, we're on the same wavelength. I would shake his hand if he were here. Shawn Kerri is wonderful. Through her highly developed drawing and humor, I have fallen hopelessly in love with her and want to marry her (I'm 31, single and very serious).

And special thanks to George Trosley. I remember way back when, you once ran a contest looking for new talent (I think about the time you discovered Shawn), I drafted a story which I thought was very good. It had an underdog hero, many humorous panels and a good punchline at the end. But alas! I couldn't draw it. Well, about a year ago I answered an ad in "Automobiles weekly" for a book: How to Cartoon Cars. I didn't recognize the name I made the check out to, but when I got the book I recognized the artwork and immediately remembered the guy. The book has been worth its weight in gold to me. Now I can draw cars—whoda thunkit? Boxes, man! Straight boxes, bent boxes, angled boxes! fantastic, and I'm practicing to get better. I still have a lot of trouble with wheels and tires. Paper can only be erased so many times before it starts to get real funny. My dream is to be published one day. Thank you so much George Trosley. I can't thank you enough for caring. Thank you all for being there. And listening.

Randy Hartman  
 Bethlehem, Pennsylvania  
 —We don't know whether Shawn is considering any offers of marriage these days, but we'll pass your message on to her. We're still trying to get a photo of her to run in the magazine, if we can get her to stop moving.

Hey radical swoops!

I just got your latest mag that you artists put out. My first reaction while thumbing through it was: Gnarly, simply gnarly (November/December issue). I could taste the grease in my mouth—those Mustangs were drawn so well. My dad had a Mustang when I was 6 or 7. I'm thirteen now. It was totally impressive. I could tell you what size engine was in it, but I'm more of a skater (Santa Cruz Slasher, if you will) than a Hot Rodder or whatever. But I love readin CARtoons.

Tell George Trosley thanks for being alive. He's improved my drawing 100%. I noticed more steps in his How-Tos, also. Thanx. I'm impressed. I think the other people are pretty trick too, but Georgy slides on ice. One point of interest, though, in the same issue about the Mustangs, on page 61, an article called "Shadetree Garage"—the guy goes into the garage with a truck and comes out with a Corvette. What gives? Please answer this one. Even though you cool, awesome, radical, super and very nice dudes aren't going to print this here letter, have a nice day anyway. By the way, are slicks against the law on Texas roads?

Aaron Nash  
La Porte, Texas

*—If you'll take another look at that story, you'll see that the guy on the second page isn't the same as the one on page 61. Also, us cool, awesome, radical, super and very nice dudes are running your letter and having a nice day. As far as we know, slicks are against the law anywhere, except on an officially-sanctioned drag strip.*

Dear tooners,

I just wanted to tell you how much I love your mag. I reckon it's probably the greatest mag around. That's because you have all these ace artists like the three big ones: Trosley, Austin and Kerri. I love the How-To and My Wheels sections.

I'd like to suggest something: could

you make the How-To section longer and teach us how to draw some of the really good cars from My Wheels section?

By the way, is Joe Borer a new artist? I'd like to know. I reckon his cars are tops, too. One last thing: isn't it possible to have CARtoons monthly instead of bi-monthly?

Chris Fung

Happy Valley, Hong Kong

*—Joe Borer is a new artist. He was discovered when he started sending in drawings to the My Wheels section, and we were really impressed. As of right now, there are no plans in the works for us to go monthly, although a lot of people have been asking us about that.*

tooners,

I have been reading toons for a little while now. I have noticed some drastic changes in your mag. Like an ATV section. The mag is called CARtoons, not ATVtoons. And you have been putting in only one How-To section, you used to put in two. I like the idea of putting posters in the mag instead of Iron-Ons. I was running out of T-shirts to put them on. This is my first time writing you. I recently purchased the October 86 issue. My compliments to Bob Lewweaver on the My Wheels Porsches. Tell Trosley I loved October's K & B. I keep on reading it over and over again. I think you should have more How-Tos and less ATV junk. Is Trosley going to do a book on just How-Tos? When is it going to be on the shelves? I am an avid Chevelle fan. I have never seen anything about a Chevelle in toons. Why not? Why don't you do a Chevelle Cut-a-way? The reason I don't like ATVs is that one of my friends had both wrists broken on a 3-wheeler. Oh, by the way, isn't \$9.00 a little steep for six issues? Hot Rod is only \$8.97 a year (12 issues). Thanks for your time.

Dan Eammons  
Alliance, Ohio

*—We ran an ATV section for the same*

*"Oh, the manufacturer simply wanted to make a statement about drinking and driving, I suppose."*

*reason we run Mustang sections or Chevy sections or any other kind of section for that matter: we get a lot of requests and they're very popular. We try to please all of our readers, but there are just so many issues in a year. Which brings us to the point of price. Hot Rod carries a lot more advertising than we do. We ran about 4 pages of ads in a recent issue and we received innumerable complaints about that. If we wanted to get the price to a point where it'd be competitive with Hot Rod's, we'd have to run about 50 pages of ads. George Trosley does have a How To Draw book available. You can get a copy by sending nine bucks to George Trosley, Box 37, Woodlyn, PA 19094.*

Dear CARtoons,

I got my first issue because the Mustang Special caught my eye. I just love Mustangs, especially 64½ to 66. I showed my mag to a friend and he loves it, too. I think Trosley's How-To-Draw section is great. I know how to draw much better. His toons are rad too. I think I will subscribe to this awesome mag. You guys are great. I really like the posters.

#### ANOTHER-WE-KNOW-YOU'VE-HEARD-IT-BEFORE-COUPLE OF WORDS FROM QUICK IRV:

A lot of the entries we received for the ATV contest did not have the names and addresses written on the back of them. Drawings submitted to the contests and drawings submitted to My Wheels must have the name and address on the back. Also, if you want your drawing returned, you must enclose a self-addressed, stamped envelope. We have been receiving drawings with stamps simply stuck into the envelope. We CANNOT guarantee returns unless you enclose your own self-addressed, stamped envelope.

Also we've received a lot of change of address and subscription requests addressed to the editorial offices. We even received change of address requests mixed in with the ATV contest entries. If

you send your subscription requests to the Editorial offices, this simply slows things down. It also will cause you to miss quite a few issues, as all mail incorrectly addressed to the editorial offices must then be rerouted to the subscription fulfillment department. Please make sure that you are sending your requests, drawings, letters and/or whatever to the CORRECT address. We CANNOT emphasize this enough. AND, we cannot be responsible for requests that go unfulfilled because of incorrect addresses. You owe it to yourself to use the proper address. And put your names on the back of your drawings.

Here are the addresses you should use. Requests for subscriptions and changes of address should be addressed to:

CARtoons/Subscription Fulfillment  
6725 Sunset Boulevard  
Los Angeles, CA 90028

Your drawings (with your name and address on the back) should be addressed to:

CARtoons/My Wheels  
8490 Sunset Boulevard  
Los Angeles, CA 90069

Letters to the Editor and/or Quick Irv should be addressed to:

CARtoons/Letters  
8490 Sunset Boulevard  
Los Angeles, CA 90069

As you know, we no longer carry back issues and there is no longer a Corresponding Erica column. Anyway, thanks for list'nin one more time and hang in there. Keep those cards and letters (properly addressed) comin in.

*—Thanks for the kind words. It always heartens us to welcome aboard a new reader.*

Dear CARToons,

Well, it's me again and I just received the December issue. As always, it's terrific. One disappointment is that I'm finding advertisements when you said there wouldn't be any. In a later issue, one reader asked for more color in the magazine than the cover and Iron-Ons. You said that coloring is most expensive and that you would have to raise the price or run ads. So is the cost of your magazine getting expensive or can we look forward to a colored issue soon?

K&B was great as always, my praises toward Trosley. The story reminded me of when a friend answered an ad in the paper: For Sale 1958 Chevy, white. Make offer. Everyone laughed at him when he said he was going to take a look at it, figuring on its being a heap. What he stumbled on was a 58 Corvette that was up on blocks in a barn with less than 400 miles on it. The tires were removed and placed in the seats which were full leather. He offered the lady 500 for it. She thought it was too much but took it anyway. I think all of us stopped laughing and started crying.

Hardin's Cruise Theory was good and Dewey's Predictions, Panic Stop, Stang Museum and even When a Pinto Won't Do are deserving of top honors.

Overall, the Mustang section was very good and I enjoyed reading it even though I'm a Vette fan myself. Maybe you'll print a special Vette section soon.

What ever happened to Reader's Gallery and can you still submit entries? How long is Kerri going to

leave Lawrence hanging on? Pende ibi, Quick Irv. CARToons forever.

Jim Fox

Grand Rapids, Minnesota

*—Your cost analysis is very interesting. However you've oversimplified the problem. There are people here at Petersen Publishing who know a lot more about cost, numbers, profits and pricing than we do. They rely on us to draw the cartoons and put out a good magazine, just as we rely on them to tell us what price to put up there in that little box on the front cover. (See Dan Eammons letter.) Reader's Gallery was discontinued, but you can still submit drawings to My Wheels, if you wish. Just make sure that your name and address is on the back of each and every drawing, that they are reproducible and that they are correctly addressed. See Quick Irv's note about the right address to use. And, he's hanging in there.*

Dear toonies,

I am a 12 year old boy who has been reading your magazine for 3 years. I love it. K & B are awesome. So are Austin, Kerri, Kohler and Hardin. Say hello to Trosley for me. Your magazine is so great that my mom gave me a subscription for my birthday! It was the best gift I ever got. You're going to see my name a lot very soon. I am going to send in more letters and My Wheels drawings. Please print them.

I also read Hot Rod, which I have subscription to, and Car Craft. If my writing is a bit odd, it's because I just took a bath and my fingers are wrinkled.

I guess I should put in my say in the fastest production car thing. I think the AC/Cobra 427 is the fastest

American-made car. Chevys are very fast also.

I totally agree with Sam Jeffas. If MoPar fans want their cars in your fine mag, then they should stop insulting Fords and Chevys. Even though I am a Ford fan, I do like Chevys. You could say I'm a true-blue CARToons fan. I have gotten every issue for the last year or so. Thanks for the Mustang issue. I really liked it. It helped me draw Mustangs better.

Is anyone familiar with the name Carl Kohler? I don't know if anyone else does, but I think his cartoons are pretty funny. Let's hear something for Carl in the letters.

Could you send me a picture of Shawn Kerri? She is a great artist and her cartoons are funny. "The Other Side of CARToons" was great. The best one was Shawn Kerri's American Cutter. I like every part of your magazine. Keep up the good work. Chad Brown

Monroe, Michigan

*—We are up to our ears in requests for Shawn Kerri's photo. We, as we said before, haven't been able to get her to hold still long enough to get the photo taken. She is very busy and moves really fast. However, we'll keep trying.*

Dear CARToons,

The December issue just popped into my mailbox today and I'm glad to see the American-made Mustang drew top honors in CARToons. If you read my letter a couple of issues back, you know I drive a big ole 1968 Dodge Charger, but I do like the Ford Mustang's classic body styling. The 1986 Mustang boasts 180 hp with that 302 V8, and that isn't turbo-charged either. I also discovered that the Japanese Honda CRX-I can do

*"... and when this console-button is pressed—activating an invisibility field—the entire car just..."*

*"It's best described as a dually-powered muscle machine that frees an owner from the tyranny of rising insurance costs."*

*"Specifically designed for usage in cities with poor street-drainage systems!"*

0 to 60 in 8.9 seconds, but a lot of American cars are still faster and they top end a lot faster. The Ford Mustang is considered the best valued sporty car for the money in 1987. I asked a mechanic friend of mine how long a turbo-charged hopped-up four cylinder engine would last if you take good care of it. He told me 80,000 miles before a rebuild is about normal. I bet American-made V8s and large six-cylinders can double that length of useful life. The Ford Mustang's body panels are made from pure Yankee-made steel, while the Japanese sporty cars are made from re-manufactured steel (pot metal). I bet those Japanese body panels don't last long on the salted roads this winter. Keep cool and let's be nicer to ourselves, as Americans make great cars.

Marty Peterson

Bothwell, Washington

*—Quick Irv is hoping that his "brand-new" 68 Caddy will last for 200,000 miles, which means, the way Quick Irv drives, that it will last him until 2010, the year we make contact.*

Dear CARtoons,

I recently received your October 86 issue and after thoroughly enjoying myself and reading its entire content, I was really let down. There, on the last page, I was shocked and outraged to see that there would be an entire issue containing what a Stang fan would love, a whole issue of Mustangs. Then, reading on, I read, quote: "No sweat, Chevy lovers . . . one coming up for you, too". By now you may have guessed. I'm a MoPar lover. Yes. MoPar, a group of cars that I have failed to notice in your mag, except twice in the My Wheels section, since I've been buying it. All I would like to see is a Charger or Barracuda in the How-To Draw section, maybe even a Superbird or a GTX. There a few of us waiting to see a MoPar in your mag. Hopefully this letter will be printed so I can see your response.

Jason Davis

Milton, Washington

*—If you'll check a few issues back, you'll see that Steve Austin did one of his Cut-A-Ways that featured a MoPar*

*car. Actually, the entire issue was not devoted to Mustangs, although a major portion of the issue was. In the case of the How-To, Trosley pretty much does what he feels the most people will respond to. We figure he's about eight years behind trying to fill requests for the How-To section, MoPar fans notwithstanding. However, we do promise here and now to make amends. By the way, one of Quick Irv's favorite cars of all time is the 1970 Dodge Challenger, especially the convertible. Hang in there.*

Dear Quick Irv,

I would like to say that you have the best mag in the world. Your Mustang issue has had my mind and my hand drawing Mustangs for seven days straight. But, Irv, I'm sorry to say that Carl Kohler was wrong in one of his cartoons when he said: the world's only stretch stang, kid. The world's only stretch stang belongs to Tim Baxter, my neighbor's son. I have sent you a picture of it.

I would like to know where I could get another copy of your December issue for Tim.

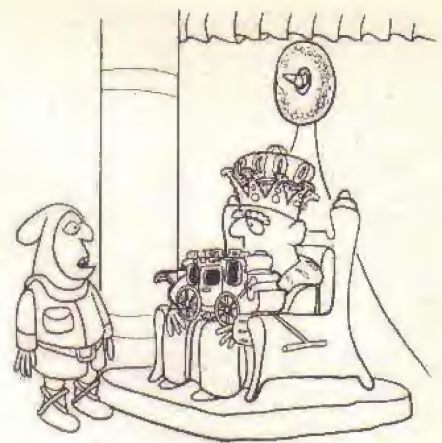

I have noticed that ever since you advertised your cartoon Talent Search, all you have done is drop Tom Wojahn and hire nobody. A kid I think you should hire is Ken Rhodes, that boy has talent. I am glad you've been featuring Joe Borer often. I have also noticed that you have not been printing much sent-in comics. Why? And is Shawn Kerri doing less work for your magazine because she is doing things for Cracked? Sam Jeffus, if you like taking names of cars and turning them into funny sentences, then you should listen to a comedy tape by Williams and Rea. Dennis, I know that My Wheels is hard on the old CARtoons checking account, but please try to have more than three My Wheels in one issue. Please have a Mustang II issue.

Sean Lien

Minneapolis, Minnesota

*—Thanks for the photo of the stretch Stang. As you can see, we decided to run it here with your letter. The December issue was very popular and even we are having trouble getting extra copies. Actually, we haven't dropped Tom Wojahn. If we like the stuff that he sends in, we run it. It all depends on when and what he sends in. Actually we've started running Joe Borer's stuff since we had the talent search. We found him through the My Wheels*

*"Sorry, Sire—no 1/10th-scale horses in the kingdom."*

*section. As far as things that are sent in are concerned, we run those also if we think they're good and our readers would like them. We don't have any special button about not printing sent-in material. Just make it good. Also make sure that your name and address is on the back of all the material you submit. What Shawn Kerri does for Cracked has nothing to do with us. Sometimes she does more for us, sometimes she does less for us. It just depends on what kind of carzy ideas she comes up with, because, as one of our readers pointed out, this is CAR . . . toons. What do you think all those MoPar fans out there are going to think about a Mustang II issue?*

Dear CARtoons,

I would like to subscribe to your magazine. Thank you. I find it interesting.

Kevin Steinbach

Bottineau, North Dakota

*—Thanks for the kind words, but you've got to send in some money.*

Irv,

Hey, I just started getting CARtoons. I think it's pretty rad. I first saw CARtoons in a used book store. I was really excited because I love cars and it was just my thing. I think it's pretty bad that because of some parents you have to stop Corresponding Erica. I mean how much damage could it do? I thought it was pretty cool myself. But don't worry, guys, Trosley is still hot and so is Shawn and all the others. And, by the way, when are we gonna get some Iron-Ons? Keep on cruisin.

Nick Field

Houston, Texas

*—Actually it wasn't the parents that caused us to drop the Corresponding Erica column. In all fairness to them, let's say it was a few weirdos out there who made the parents angry by abusing the privilege of the accessibility of the names and addresses in the magazine. We dropped the Iron-Ons in favor of the*

**We welcome letters to the editor. The shorter they are the more we welcome them. The letters must include an address or telephone number so the signature of the sender can be verified. Once verified, names may be withheld at your request. We continue to reserve the right to edit the letters for clarity, brevity or other purposes.**

*pull-out poster and most of the readers seem to like the new set up better. Also, we had a lot of production problems with the Iron-Ons.*

CARtoons people!

I'm on my seventh issue now and I can't believe it! I made the mistake of lending three to my friend and where are they? He's reading them for the seventh time. The thing I like most about your mag is that I can never quite get the point, you know? You got a weird mag. I think I'm getting pretty good at drawing, thanks to George. It's amazing what can happen in seven issues. I hate the creatures who put Erica out of order. Can you ask Trosley what kind of car he likes best? What does Shawn look like anyway? Is there a subtoons anywhere? I'd like to tell you that the modified VW in the Krass and Bernie title should be a national treasure. Keep on Toonin.

Michael Onieu  
Regina, Canada

*—Actually George Trosley likes a customized rectangular drawing table equipped with hi-speed aluminum straight edge, fast action T-square and modified twin triangles (30-60-90 and 45-degree). Shawn Kerri looks like any other girl who does drawings for a CARtoon book. Subtoons was a practical joke that came up during our "when are you gonna have subs?" days.*

Yo toons,

All right, guys, enough is enough! I've been keeping this to myself as long as I could waiting for things to get better, but now I'm at the end of my rope. I've been reading CARtoons for years and have always waited impatiently for the next issue to come out—up until about the past year. I know you try to have something for everyone in your magazine, but this is getting ridiculous. If I am not speaking for a majority of the readers I'm sure they'll tell me in the letters column of an upcoming issue.

What I want to complain about is: I don't read CARtoons because I like cartoons, I read CARtoons because I like hot rods. You know: musclecars, street rods, factory horsepower machines etc. I don't like cowboy machines (off-roadies), sewing machines (Datsuns, Nissans, etc.) or those overpriced, overglorified status symbols that keep foreign economies in the pink (Ferraris, Lams, Porsches). I wouldn't mind a story or two in each issue featuring some of the above material, but, come on, you guys, lately I think you are going to change your name to Off-Roadtoons. When I buy an issue of Car Craft, I get an issue packed full of just that, cars. American cars. Notice how when off-road vehicles became popular, Petersen started a new

publication for off-roaders, separate from Car Craft and Hot Rod? At least Krass and Bernie suit my taste. The only stories I enjoyed in your October issue were Krass and Bernie, HARDtoons and Hot Rod How To. Austin's always got some good stuff. Therefore I left it on the shelf where I found it and will continue to do so until I see an issue done in your old hot rod-musclecar type format. I see you are running a special section on Mustangs in the next issue. Now that sounds like something that will interest me. I am a Stang fan.

I hope I haven't been too blunt or hurt any feelings, but like I said this is CAR toons. And by the way, the art is top-notch still, I'd just like to see different subject matter, you know: good old Mustangs, Camaros, Chargers, Vettes, rods, Firebirds, etc. Still a true-blue Ford fan, man.

Matt Berger

Edmond, Oklahoma

*—You're right, in a way. Petersen puts out all sorts of magazines for people with varying interests: hot rodders, car crafters, off-roaders, motorcycle riders, photography buffs and scuba divers. However, CARtoons is only one magazine and it becomes very difficult sometimes to be all things to all people. You may have noticed the flak we get from the MoPar fans. We are not purposely ignoring them, although, to them, it might seem that way sometimes. Also, it might interest you to know that Petersen puts out a bi-monthly Mustang magazine for you true-blue Ford fans.*

*"Oddly enough, gentlemen, you're the first musicians who haven't hated this model on sight."*

Dear tooners and toonettes,

I think your mag is rad! I only have one issue so far, but I'm gonna buy every mag you put on the stands. I draw better cars now, everybody loves em. I especially like Trosley, Austin and Kerri. In your December 86 special Mustang mag, I found a mistake in Tales of the Shadetree Garage by Neil Grahame. In the beginning, he says he

has a truck. At the end he has a Vette. I don't get it! I'm a real Mustang lover and I loved your pull-out poster Mustang Stampede and Mustang Panic Stop. I heard about your Iron-Ons and I'd really like to have some. I think K and B and My Wheels are the best sections. Keep up the good work and put in some Iron-Ons.

Eric (The Mustang) Engelmenn  
Norridge, Illinois

*—Actually, if you read the Shadetree Garage story a little more closely, you'll see that there are two different guys on each of the pages, as there was a punchline at the end of each page. The Iron-Ons have been retired in favor of the more popular pullout centerspread poster.*

Dear CARtoons,

I've seen a lot of cherry Mustangs and other cars, but what about the 66 and 67 GTOs? They're the best cars I've driven in a while. I'm quite sure you guys and gals there know what a Pontiac GTO is. I own a 1966 GTO, all stock and standard bore plus crank. Anyhow, how about you guys and gals doing a tribute to the old Goats like you did on the Mustangs? I know you can do it, so why don't you? Could you do a centerspread of a 1985 Lamborghini Countach 5000S? Keep on toonin.

Todd Foreman

Jacksonville, Florida

*—We try to please everybody. We really do, even though it doesn't seem that way sometimes. We happen to think that the 66 GTO is one of the class machines of all time, so we'll be working on that. By the way, Todd, do you know what the letters GTO stand for?*

Dear Quick Irv,

You and all the Editors put out the greatest cartoon mag around. It's just fantastic. And of course with such a great mag, others like me would really love to get our hands on some of the old CARtoons issues. I know it sounds like each letter keeps repeating the same thing, but we need those back issues! So, please, could you get any or tell me of any other place I could write to get them. I would really appreciate it.

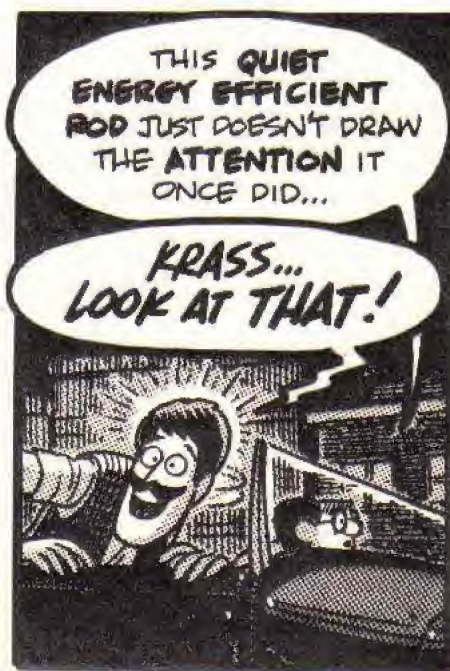

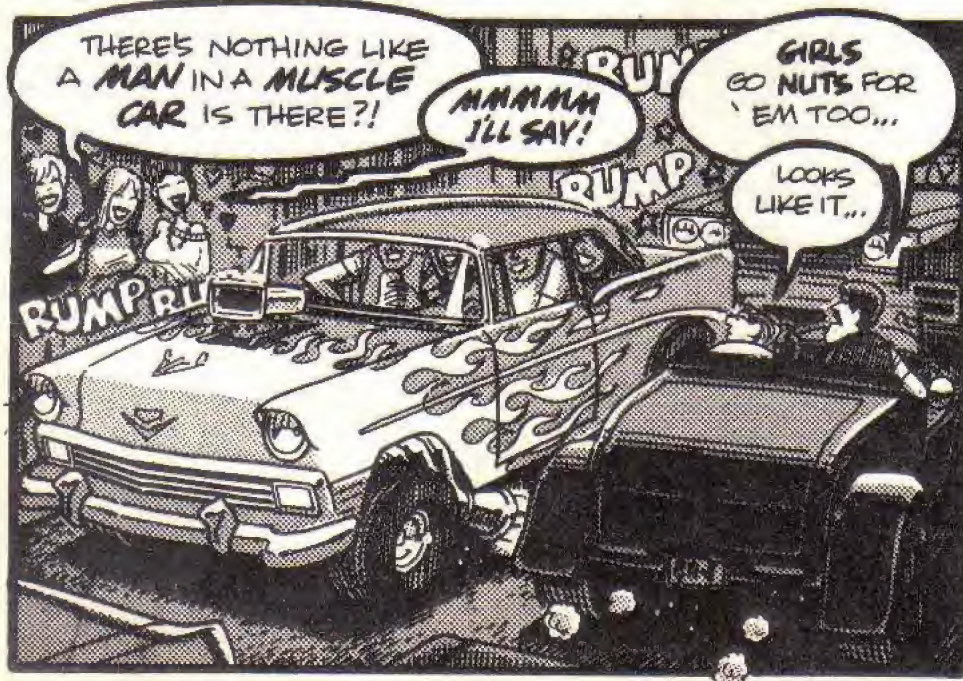

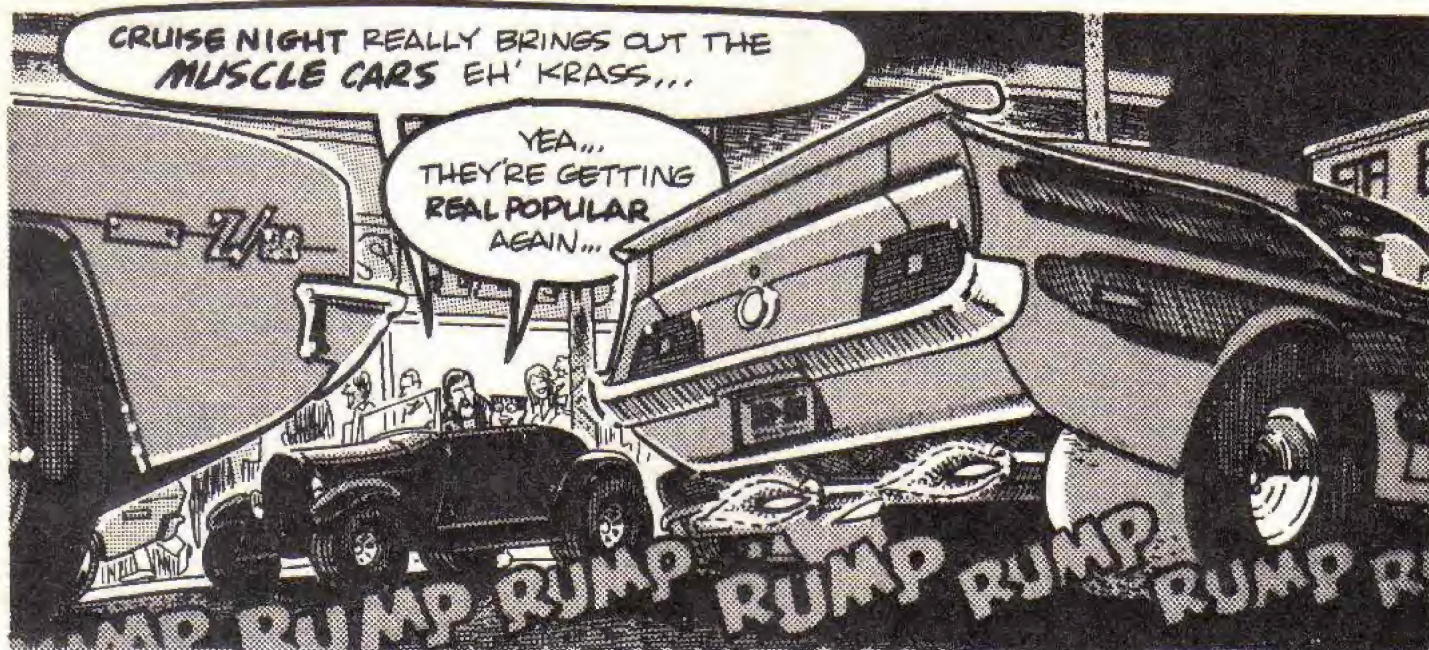

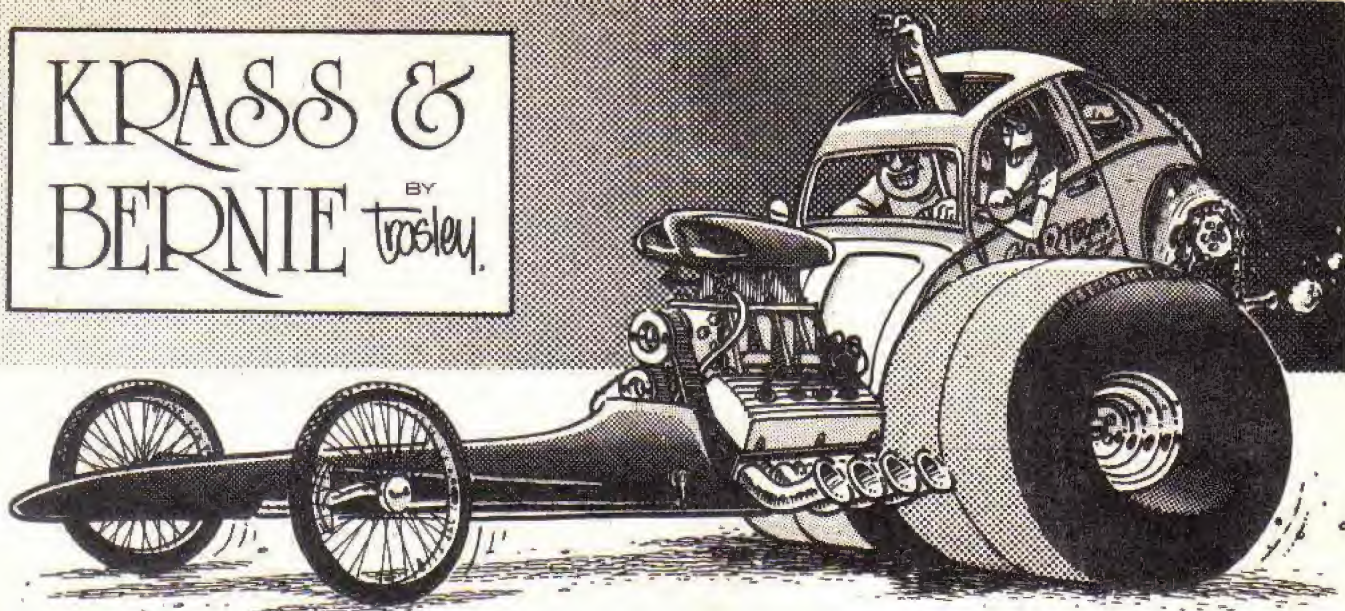

Richard Clark

Kelowna, Canada

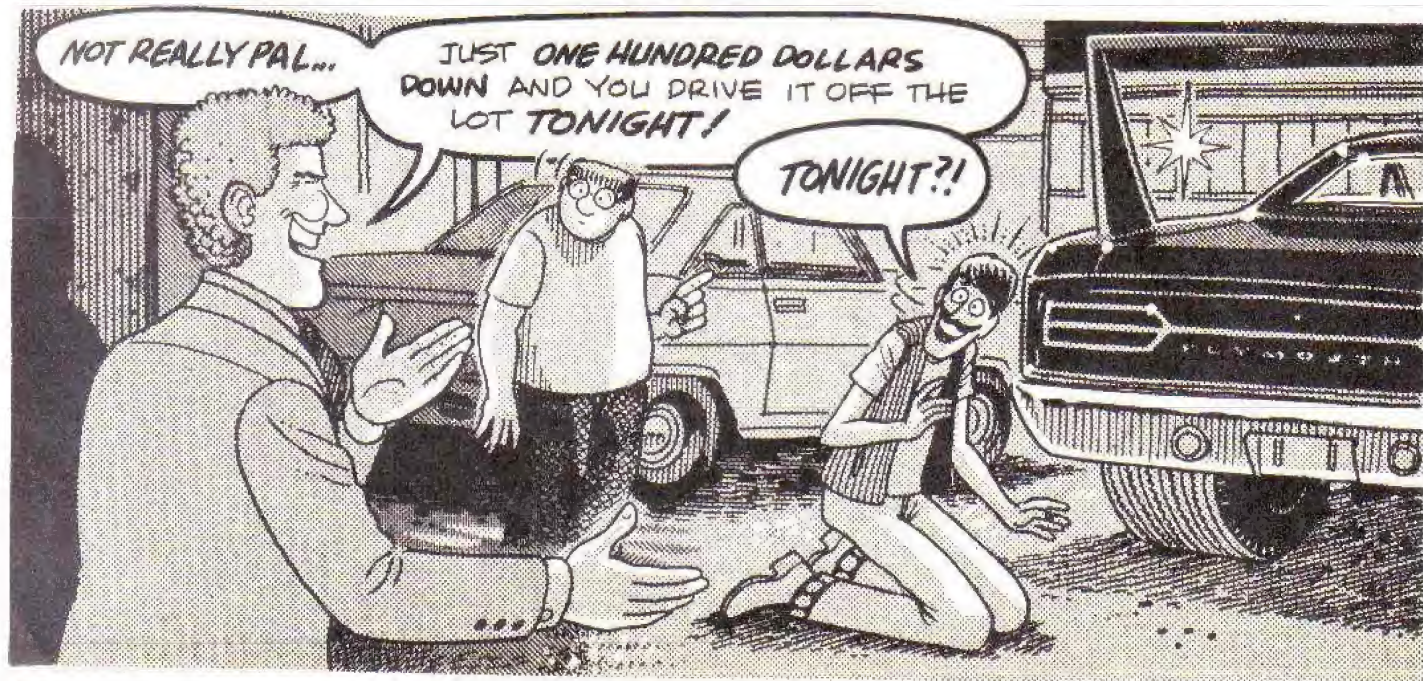

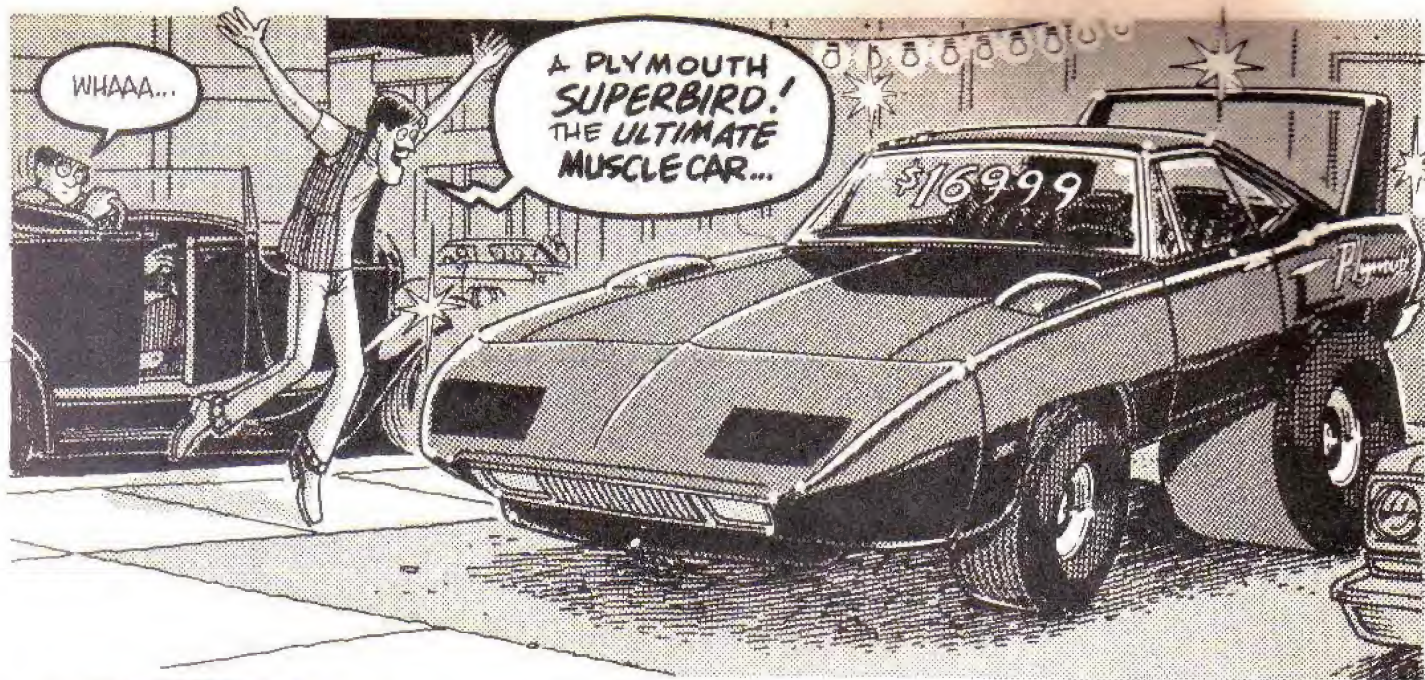

*—The reason we don't have a back issues department anymore is that we simply don't have any back issues left to sell. If we did, we'd love for you to send in the money and buy them, but we can't give you what we don't have. Your best bet is used book stores or other people who collect the magazine. You might try reading Motor Trend magazine, as they have a classified ad section which has a division for books and magazines, back issues, collector's sets, etc.*

## PRESIDENT TALKS TURBO AT SUMMIT

CARTOONS FOREIGN CORRESPONDENT, JULIE BOATZOL, TODAY REVEALED THE REAL REASON FOR THE BREAKDOWN IN TALKS AT THE PRE-SUMMIT SUMMIT A FEW MONTHS AGO IN ICELAND BETWEEN RONNIE AND MIKHAIL. IT SEEMS THAT JUST AS THE TALKS WERE PROCEEDING ALONG THE LINES OF COMPLETE ARMS REDUCTION AND A RESTRUCTURING OF THE 'STAR WARS' SYSTEM, THERE WAS A BIT OF A MIX-UP. PRESIDENT REAGAN OPENED HIS BRIEFCASE TO FIND, NOT HIS CAREFULLY OUTLINED, DEFENSE STRATEGY, BUT HIS COLLECTION OF 'CAR CRAFT' AND 'CARTOONS' MAGAZINES! SEEMS THE PRESIDENT, A LONG TIME FAN OF THE MAGS WAS LOOKING OVER HIS ISSUES JUST BEFORE LEAVING FOR ICELAND. "WELL...I, I GUESS WITH ALL THE EXCITEMENT OF THE TRIP AND BREAKFAST AND EVERYTHING, I GUESS...WELL, HEH-HEH, GUESS I JUST PICKED UP THE WRONG BAG!" SAID THE PRESIDENT

LATER, THINKING QUICKLY DURING THE CRISIS, REAGAN QUICKLY TURNED THE CONVERSATION TO HIS ADVANTAGE. AS THE RUSSIAN LEADER ASKED REAGAN THE TERMS FOR COMPLETE NUCLEAR REDUCTION, THE PRESIDENT RESPONDED: "YOU KNOW SOMETHING MIKKY, WHEN I THINK OF THE QUALITY AND PERFORMANCE OF MUSCLE CARS IN THE GOOD OL' USA COMPARED TO THE SOVIET STREET SCENE...WELL, IT JUST MAKES ME REALIZE THAT OUR EFFORTS SHOULD BE PUT TOWARDS SHARED CRAISING TECHNOLOGY BEFORE WE GO MESSIN' AROUND IN SPACE AND DESTROYING MANKIND!" AS THE RUSSIAN SAT STARING IN STUNNED SILENCE REAGAN BOLTED FOR THE DOOR.

## JULIA CHILD'S MAG-WHEEL BONDO RECIPE

WHEN WE ASKED WORLD FAMOUS TV CHEF JULIA CHILDS (SHE'S ALWAYS HANGING AROUND THE OFFICE) TO WHIP UP A SPECIAL CARTOON RECIPE FOR OUR READERS, SHE JUMPED INTO IT HEAD FIRST. HERE IT IS.

**BONDO TUNA CASSEROLE (SERVES 4)**  
2 CANS 12 1/2 OZ. TUNA | BOX U-MIX AUTO-  
1 CUP CHOPPED CELERY | MOTIVE BONDO PAC  
1 CUP MAYONNAISE | 1/2 TSP. SALT  
1/2 CUP RELISH | 3 BANANAS MASHED

"SIMPLY MIX INGREDIENTS IN A LARGE BOWL (I LIKE TO USE THE MAG OFF MY '69 GTO) AND SERVE COLD ON CRACKERS OR WHEAT THINS. THE BONDO GIVES IT A CHEWY RICH TEXTURE AND IF YOU SIMPLY CAN'T EAT IT ALL...DO SOME BODY WORK!"

## JANE FONDA'S PRE-VIDEO SWEAT

"BIG DADDY" DON GARLITS (ABOVE) CHECKS OUT JANE'S BOOGIE

WHILE DIGGING THROUGH OUR DIZZY DAME FILE HERE AT THE OFFICE, WE DISCOVERED THIS RARE PHOTO OF A YOUNG JANE FONDA DOING HER THING TO 'ENTERTAIN THE TROOPS' AT A LOCAL DRAG RACE. TAKEN JUST BEFORE 'BARBARELLA' MADE HER A HOUSEHOLD NAME, JANE WAS A FREQUENT TRACK GROUPIE AT ALL THE MEETS. ONE OF OUR SENIOR EDITORS REMEMBERS: "OH WE ALL KNEW SHE WAS SOMETHING SPECIAL, SHE CAUSED MORE WRECKS WITH THOSE TIGHT WORKOUT SWEATS!"

## HERE'S ONE VOTE FOR MUDFLAPS

DOUG STUCKY OF CABLE HOGUE, NEW MEXICO KNOWS THE VALUE OF MUD FLAPS. WHILE RIDING HIS HONDA 550 DOWN ROBARDS STREET HE NOTICED THE SEMI IN FRONT OF HIM WAS SANS MUDFLAPS. SECONDS LATER: "A WAVE OF STREET SLOP (A LOT OF FOLKS RIDE THEIR HORSES THROUGH TOWN) CAME RIGHT AT ME!" LUCKILY DOUG MANAGED TO RETAIN CONTROL BUT ENDED UP LOOKING LIKE THE REFEREE AT A MUD-WRESTLING EVENT!

## Woody Allen's latest: HANNA AND HER PLUGS

WRITER, DIRECTOR, ACTOR WOODY ALLEN RELEASED NEWS(AND THIS STILL) OF HIS LATEST PROJECT. A SEQUAL TO HIS CRITICALLY ACCLAIMED HIT OF LAST YEAR 'HANNA AND HER SISTERS.' ALLEN'S WORKING TITLE OF THE FILM IS 'HANNA AND HER PLUGS' AS IN SPARK PLUGS? WE ASKED THE PROLIFIC FILMMAKER ABOUT THE TITLE AND THE FILM. "I DON'T USUALLY DO SEQUALS... IT'S KIND OF LIKE TRYING TO EAT THE SAME SANDWICH TWICE, THE

INGREDIENTS NEVER LOOK THE SAME THE SECOND TIME. BUT ACTUALLY THE FILM FOLLOWS MIA'S (FARROW) CHARACTER AS SHE LANDS A JOB AS A SECRETARY FOR A RUN DOWN, SLIMY, TWO-BIT AUTO MAGAZINE (KNOWING ABSOLUTELY NOTHING ABOUT CARS) AND PROCEEDS TO TAKE OVER THE MAGAZINE WHEN THE EDITOR CHOKES ON A PROCENI OLIVE AND FALLS INTO THE PAPER SHREDDER. THE FILM ENDS WITH HANNA WINNING THE '87 INDY 500 (FILMED ON LOCATION)."

WE'RE GLAD TO SEE WOODY GETTING BACK TO THE SLAPSTICK COMEDIES WHICH MADE HIM FAMOUS. THE DIRECTOR (WHO PLAYS THE EDITOR IN THE FILM) IS SHOWN ABOVE DISCUSSING A CRUCIAL SHOT INVOLVING YOUNG GARY COLEMAN DRESSED AS A SPARK PLUG TO MIA FARROW. DUE TO OPEN IN THEATERS IN THE SPRING OF '88, MANY OF OUR STAFF ARE ALREADY IN LINE.

## Teen Biker rides GRAND COULEE DAM SPILLWAY-upstream

THE MOST SPECTACULAR AND NUTTY STUNT OF THE YEAR HAS GOT TO GO TO YOUNG BOBBY ROSELLINI OF LYNCHVILLE, INDIANNA FOR RIDING HIS KAWASAKI DIRT BIKE UP THE COULEE DAM SPILLWAY ON THE COLUMBIA RIVER. FILMED FOR A NEW TELEVISION CAMPAIGN DESIGNED TO TELL YOUNG PEOPLE NOT TO TRY STUPID STUNTS THAT MAY ENDANGER THEIR LIVES, BOBBY GOT THE REQUIRED SHOT IN JUST ONE TAKE. "I LOVE THE THRILL OF RIDING WHERE NO BODY ELSE HAS GONE" SAYS THE 24-YEAR OLD BIKER. AS CO-WRITER OF THE CAMPAIGN ROSELLINI HAS ALSO FILMED SHOTS AROUND THE COUNTRY SUCH AS: RIDING A CHOPPED HOG UP THE ST. LOUIS ARCH, PEELING DOWN JEFFERSONS NOSE ON MOUNT RUSHMORE USING A KAWASAKI TRIPLE AND RIDING A GLEAMING SUZUKI 16-VALVE GSTSOEX DOWN HARLEM IN NEW YORK AT MIDNIGHT! WHAT'S NEXT FOR THE COMMERCIAL DAREDEVIL? "I'M TRYING TO GET A PERMIT TO RIDE MY HOND TURBO CXS00 THROUGH THE LA BREA TAR PITS IN CALIFORNIA." LOTSA LUCK, BOB!

## BUDDHIST AUTO SHOP

LIKE MOST PEOPLE, WE HERE AT THE NATIONAL MIDNIGHT STAR HAD ALWAYS ENVISIONED LIFE IN A BUDDHIST MONASTERY AS A QUIET, SOLITARY LIFE FILLED WITH INTENSIVE MEDITATION AND PRAYER. SO WHEN WE FOUND THIS TEMPLE IN DOVER, NEW JERSEY THAT OFFERED **AUTO SHOP** IN IT'S CURRICULUM WE HAD TO CHECK IT OUT. IT SEEMS THAT A LARGE PORTION OF THE YOUNG BUDDHIST BOYS LIVES IS INDEED SPENT STUDYING THE RELIGION. BUT EVERY MONDAY, WEDNESDAY AND FRIDAY THEY SPENT TWO HOURS IN THE MONASTERY SHOP CLASS STUDYING EVERYTHING FROM FUEL-INJECTORS TO PIN-STRIPPING. THESE YOUNGSTERS ABOVE, THEIR HEADS NEWLY SHAVED, HOLD THEIR PONTIAC "D-PORT" HEADS AFTER RECEIVING THEM FROM AN OLDER MONK.

# BACKYARD *Backwards* REPAIR MANUAL

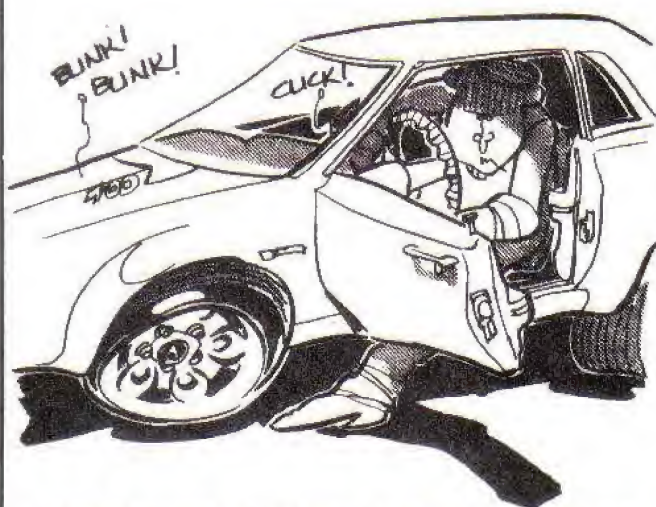

TANDY <sup>86</sup>  
RICHARDS

THE DO-IT-YOURSELF MANUAL FOR IDIOT MECHANICS AND FOLKS  
THAT JUST DONT HAVE TIME TO MESS-AROUND WITH THEIR CARS!

## SECTION 1:

### STARTING SYSTEMS

EACH VEHICLE HAS ITS OWN TYPICAL LAYOUT FOR THE STARTING SYSTEM CIRCUIT. WE SUGGEST, FIRST INSERT KEY AND ATTEMPT TO START YOUR VEHICLE. IF STARTING DOES NOT OCCUR YOU'VE PROBABLY GOT SOMETHING WRONG WITH THE STARTING SYSTEM!

OUR RECOMMENDATION FOR THIS PROBLEM IS TO RANT & RAVE FRANTICALLY AS YOU RIP YOURSELF OUT OF THE CAR AND PROCEED TO STARE FURIOUSLY AT THE ENGINE !! SNARLING SOMETIMES CAN START AN ENGINE.

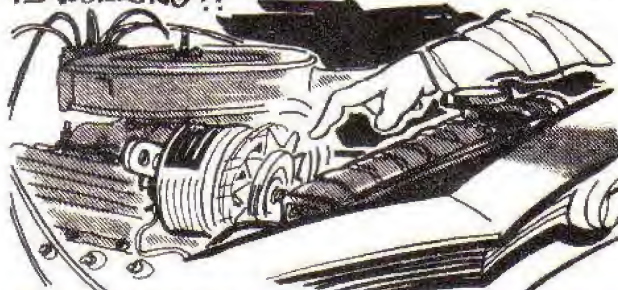

## SECTION 2:

### CHARGING SYSTEMS

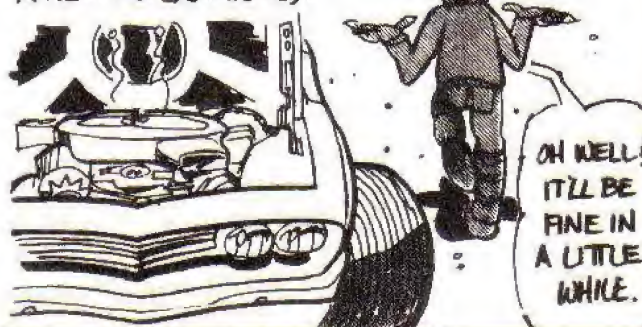

IF YOUR CAR IS EXPERIENCING A CHARGING PROBLEM IT COULD BE ONE OF A NUMBER OF THINGS. FRANTIC BEHAVIOR WITH ELECTRICAL PROBLEMS NORMALLY LEADS TO CHARGE-UP-YOUR SPINE-PHOBIA! SWIFTLY RAP THE SIDE OF THE BATTERY! IF THIS FAILS THIS COULD MEAN A FAULTY ALTERNATOR. DO-NOT RAP THE SIDE OF THE ALTERNATOR! YOU MAY HURT ITS FEELINGS.

CHECK IF ALTERNATOR IS WORKING. WHILE ENGINE IS RUNNING PROCEED TO INSERT YOUR FINGER INTO ALTERNATOR FAN! IF WOUND IS INFLICKED, ALTERNATOR IS WORKING !!

OF COURSE IF YOU CANT START ENGINE TO DO THIS CHECK JUST ASSUME THAT IT IS WORKING AND GO ON TO THE NEXT STEP!  
\*NOTE (ITS ALOT CHEAPER THAN BUYING A NEW ALTERNATOR).

## SECTION 3:

### FUEL SYSTEMS

IF YOUR ENGINE TURNS OVER BUT DOES NOT START, THIS COULD MEAN A PROBLEM IN YOUR FUEL SYSTEM. OUT LOUD PROFANITY DOESN'T HELP ANYTHING BUT YOUR TEMPER!

DIAGNOSIS IS TO FIRST GET INSIDE YOUR CAR TO CHECK AND SEE WHAT THE FUEL GAUGE INDICATES. IF FUEL GAUGE REGISTERS 'E' PUT MORE FUEL INTO TANK!

IF YOU KNOW YOU HAVE FUEL IN YOUR TANK THEN PROCEED TO REPLACE FUEL GAUGE! IF NON-STARTING CONTINUES A MERE ADJUSTMENT TO THE FUEL GAUGE MAY BE NECESSARY.

SIMPLY ADJUST THE INDICATOR NEEDLE SPRING INSIDE THE GAUGE SO THAT AN EMPTY TANK REGISTERS AS A 1/2 TANK! THAT WAY WHEN YOU RUN OUT OF GAS THE NEXT TIME YOUR GAUGE WILL SAY YOU'VE STILL GOT A 1/2 TANK! IT'S THAT SIMPLE!

## SECTION 4:

### COOLING SYSTEMS

DURING ENGINE OPERATION, INTERNAL COMBUSTION TEMPERATURES OFTEN REACH AS HIGH AS 4500°. CREATING FAR MORE HEAT THAN AN ENGINE CAN ABSORB. THIS IS WHY PROPER MAINTENANCE IS IMPORTANT TO YOUR COOLING SYSTEM.

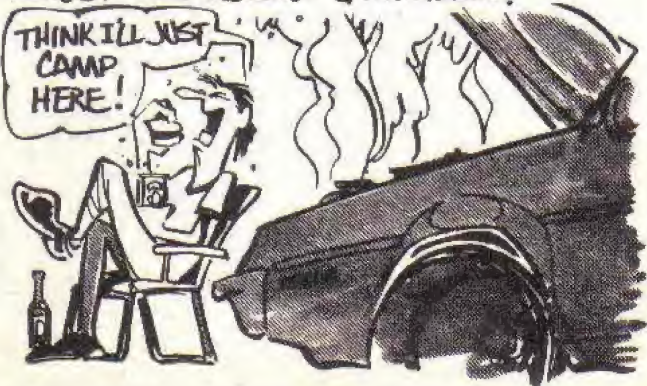

ALTHOUGH A HOT RADIATOR SURE MAKES A DANDY OUT-DOOR GRILL, IT WILL ALL DEPEND ON JUST WHETHER OR NOT YOU'D RATHER EAT GRILLED BURGERS OR DRIVE YOUR CAR!

IF DRIVING IS PREFERRED THEN BE SURE TO FLUSH AND CLEAN YOUR RADIATOR AT LEAST TWICE A YEAR. DON'T FORGET THE ANTIFREEZE!

IF YOU'D PREFER THE EATING, DON'T FORGET THE KETCHUP & MUSTARD!

## SECTION 5:

### THE ENGINE

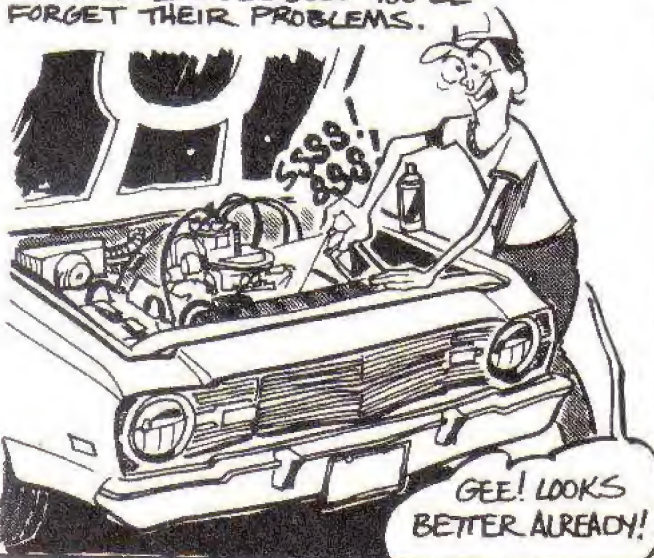

MAINTENANCE TO THE ENGINE CAN BE PAINLESS & INEXPENSIVE IF DONE OFTEN ON A ROUTINE SCHEDULE. PUTTING OFF MAINTENANCE CAN LEAD TO SERIOUS PROBLEMS LATER!

FIRST OF ALL, IF IT HAS ANYTHING TO DO WITH THE CRANK, CAM, VALVES, LIFTERS, TIMING GEARS, OR DISTRIBUTOR, FORGET IT!! BUY A NEW ENGINE! YOU'LL SAVE YOURSELF BOO-KDO HOURS!

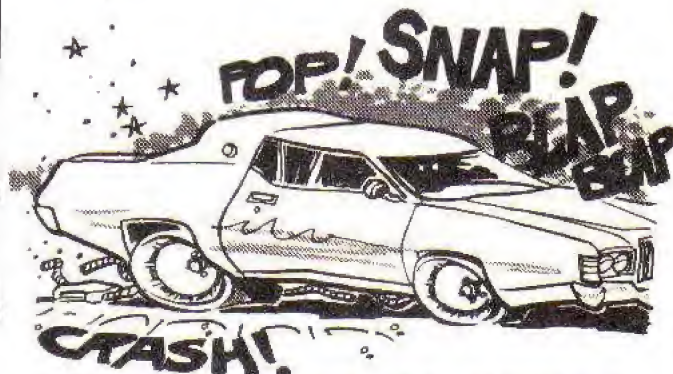

AS FAR AS SOME OF THE REST OF THE ENGINE RELATED PARTS; WATER PUMPS, MANIFOLDS, ETC. A CAN OF SILVER SPRAY PAINT WILL DO WONDERS. JUST SPRAY THE FAULTY PART A SHINY NEW SILVER AND LET SET OVER-NIGHT. THEY'LL LOOK SO GOOD YOU'LL FORGET THEIR PROBLEMS.

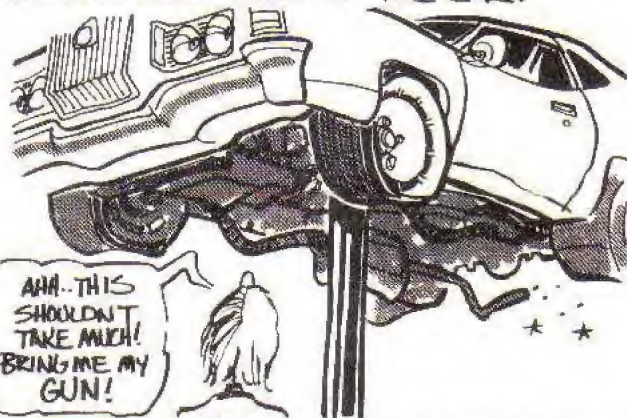

## SECTION 6:

### EXHAUST SYSTEMS

EXHAUST SYSTEM COMPONENTS ARE VERY UNCOMPLICATED. WITH THE ENTIRE SYSTEM EXPOSED TO SO MANY ELEMENTS, OVER THE YEARS IT CAN TAKE A TREMENDOUS BEATING!

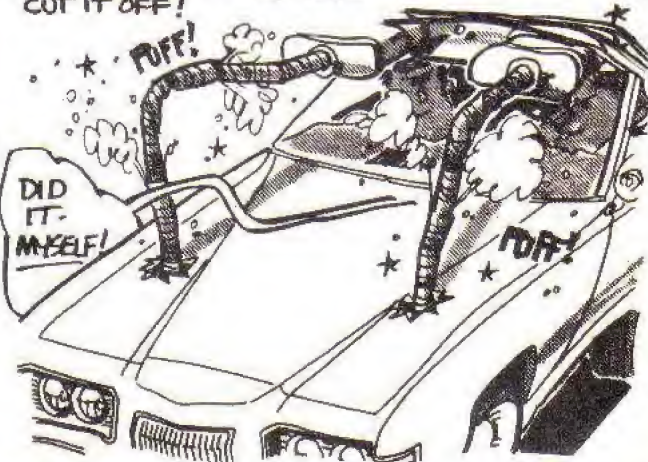

THE CLAMPS, BRACKETS, THE GASKETS & SEALS, HANGERS, AND EVEN THE TAIL PIPE SEEM TO EITHER ROT OR WELD THEMSELVES TO THE CHASSIS & BECOME A PERMANENT PART OF THE CAR.

THERE ARE ONLY TWO TOOLS YOU NEED TO PERFORM MUFFLER WORK; A HACK SAW AND SOME BAILING WIRE!

IF THE PART RATTLES THEN WIRE IT UP!  
IF THE PART IS ROTTED  
CUT IT OFF!

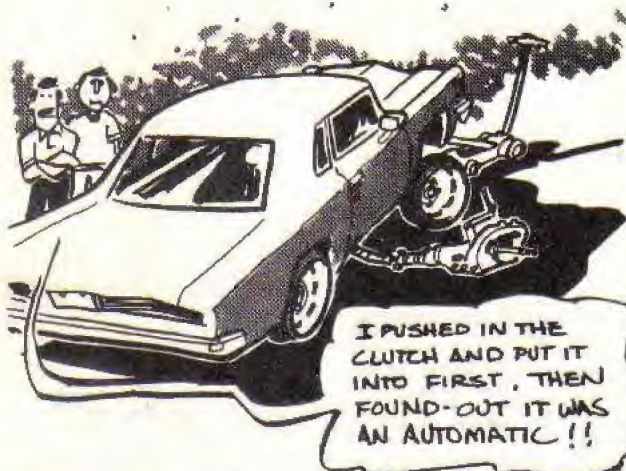

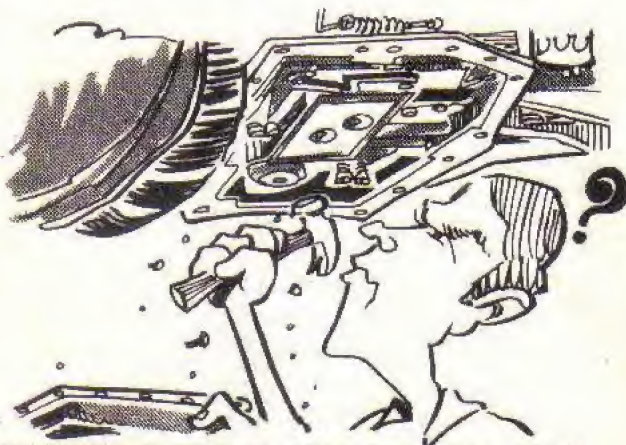

## SECTION: 7

### TRANSMISSIONS

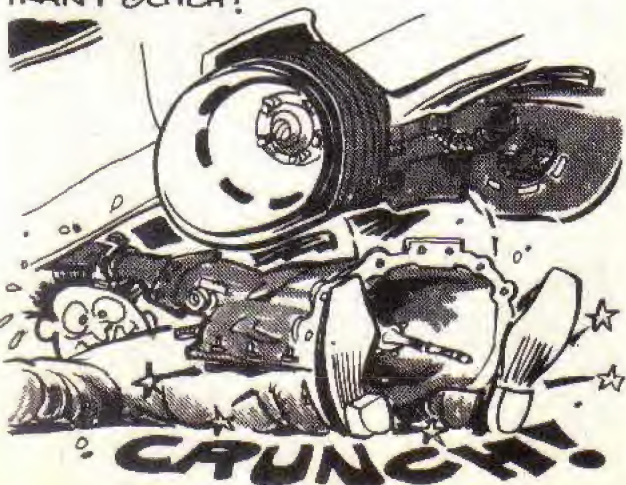

AUTOMATIC OR STANDARD, YOU'LL FIND YOU'LL NEVER FIGURE-OUT A TRANSMISSION PROBLEM. YOU CAN TRY, BUT IT SEEMS ONCE A TRAN GLITCH, ALWAYS A TRAN GLITCH!

FOR AUTOMATICS' FIRST REMOVE THE OIL PAN AND PROCEED TO GLARE AT EACH INDIVIDUAL PART TAPPING EACH OF THEM WITH A HAMMER. NOTE (BE SURE AND RETAIN ALL FALLEN PARTS OR BROKEN PARTS AT THIS POINT.)

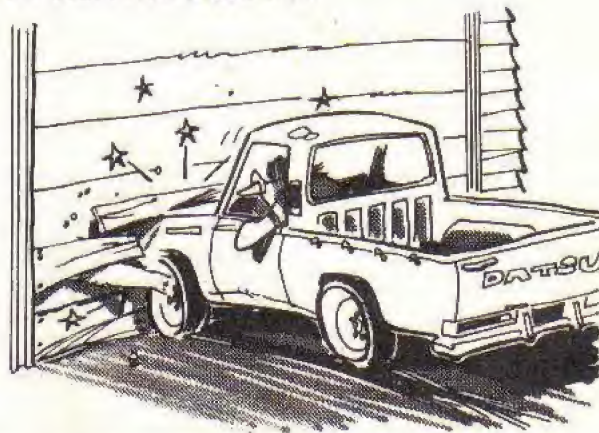

WITH THESE STEPS COMPLETE, IF TRAN STILL FAILS TO FUNCTION WELL.... WE TOLD-YA YOU'D NEVER FIGURE-IT-OUT. ONCE A TRAN GLITCH, ALWAYS A TRAN GLITCH!

## SECTION: 8

### BRAKING SYSTEMS

IMPROPER FLUID LEVELS CAN CAUSE AIR TO EASILY ENTER THE BRAKE LINES CAUSING INCONSISTENT BRAKING REACTION. BLEEDING YOUR BRAKES MAY BE NECESSARY.

YOU'LL NEED A BLEEDER WRENCH! IF A WRENCH CANNOT BE OBTAINED... AHM.. USE A PAIR OF CHANNELOCKS! IF YOU WRECK THE BLEEDER SCREW DON'T SWEAT IT! YOU DIDN'T REALLY WANNA BLEED THOSE BRAKES ANYWAY!

WHETHER IT'S BLEEDING THE BRAKES OR TRYING TO CHANGE THE SHOES OR PADS, ONE THING'S FOR SURE! YOU MUST PAY THE BRAKERS PENALTY!

MAINLY BREAKING YOUR KNUCKLES ON SOME SHARP PROTRUDING OBJECT! IT'S A LAW! YOU WILL NOT BE ALLOWED TO REPAIR ANY PART OF YOUR BRAKE SYSTEM WITHOUT PAYING THE PENALTY.

## SECTION 9:

### STEERING

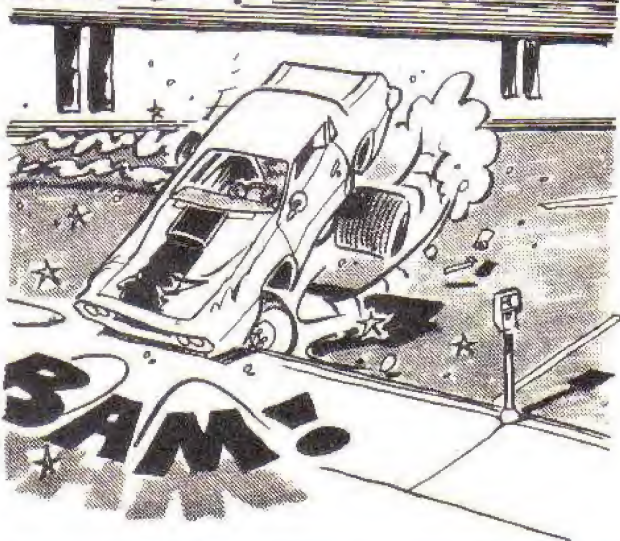

THE STEERING UNIT CAN BE ONE OF TWO TYPES POWER OR MANUAL! WHICH EVER TYPE IT IS YOU HAVE IF STEERING IS LOCKED INTO ONE POSITION EITHER THE WHEEL LOCK IS ENGAGED OR YOU'RE IN BIG TROUBLE.

IF INSERTING KEY INTO IGNITION DOES NOT FREE UP THE WHEEL THERE IS ONE METHOD FOR LOOSENING A STUCK STEERING WHEEL.

AT HIGH RATES OF SPEED SIMPLY RAM YOUR VEHICLE INTO A CURB SEVERAL TIMES. IF THIS FAILS PLEASE SEE OUR NEXT VOLUME OF REPAIR MANUAL, UNDER SECTION TITLED "TOTAL FRONT-END REASSEMBLY"!

## SECTION 10:

### OVER-ALL TROUBLE SHOOTING

ONE THING YOU MUST LEARN ABOUT AUTO DIAGNOSIS AND REPAIR. ONE PROBLEM ALWAYS LEADS TO ANOTHER. WE SUGGEST STARTING AT THE BEGINNING OF THIS MANUAL AND FOLLOW EACH SECTION. YOU'LL BE GUARANTEED LOW REPAIR COSTS AS WELL AS MINIMAL REPAIR TIME.

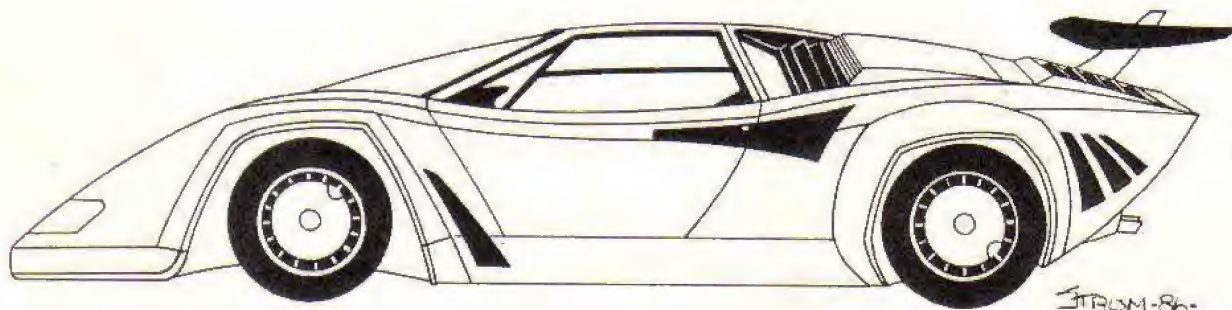

WE CAN'T GUARANTEE YOUR CAR WILL BE IN ANY BETTER SHAPE THAN IT WAS BEFORE YOU STARTED! PROCRASTINATION IS A SURE-FIRE REPAIR TACTIC. IF YOU PUT-OFF A PROBLEM LONG ENOUGH IT WILL EVENTUALLY GO-AWAY! MAINLY GO-AWAY WITH A WRECKER, AFTER YOU SELL YOUR CAR FOR SCRAP! ITS THAT SIMPLE!

# Off-Road Lesson Number 12

A detailed black and white cartoon illustration of a chaotic off-road scene. In the center, a large, jagged rock formation is the focal point. On top of it, two men are standing, one holding a sign that says "I WAS HERE". To the left, a car is partially buried in the ground, with a sign that says "LATE NEWS BIG GUN STRIKE IN CHRYSLER". To the right, another car is overturned, with a sign that says "STREET LEGAL KEEP OUT!!". In the foreground, a sign reads "COMING VERY SOON... HOT VAN AND PORSCHE ISSUE NO FOOTIN". The background features a large, grumpy-looking sun with a face, a small airplane, and a bird perched on a sign that says "TRAIL". The overall scene is one of extreme off-road driving and environmental impact.
